

PR-L151

High Speed Lamination

The PR-L151 Heat Roller (laminator) is designed to easily attach to the PR-C151. The unit offers high-speed lamination for standard CR-80 cards and offers a state-of-the-art RS-422 high-speed communication port interfaces with the printer and allows the printers firmware and driver to optimally configure the unit for a variety of laminate materials. Additionally, multiple PR-L151's can be attached together and configured with one printer to apply different types of laminate materials to a card. This solution offers the utmost in security and protection for your applications.

Features

- High-speed lamination
- High level of security
- Attach & configure multiple laminators with one printer

PR-L151 Laminator Specifications

Printing System	Heat transfer printing
Print Media	PVC
Media Size	CR-80 (2.13 x 3.38 in, 54 x 86 mm)
Printing Speed	30 sec. max
Communication	RS422, printer to heat roller
Power Source	ACPower source - AC100/120v 50/60Hz.
Dimensions	15.75 x 7.09 x 11.81 in (H x W x L) 400 x 180 x 300 mm (H x W x L)
Weight	~25lbs (10kg)
